ABOUT ME

Hi, I am a Self-taught Programmer Who is Interested in Web app development using MERN stack. I have basic Knowledge about React, React Hooks, Context API, Routing, Creating Backend Server with Express and Node.js, Storing and Retrieving data from Database, Using Firebase as a backend, User Authentication and Styling with Bootstrap, TailwindCSS and Pure CSS.

PROJECTS

FireChat   **FireChat (puneet56-firechat.netlify.app)**
Global Chat App using React and Firebase
User Authentication
Real Time messaging

ToDo List   **ToDo App (puneet56-todo.netlify.app)**
Productivity To-do list App using React and Custom Backend
User Authentication, Local User functionality
NeDB as database

Expense Host **Expense Host (puneet56.github.io/expense-host)**
Simple app to Manage expenses using React and Firebase
User Authentication
Firebase Realtime database Rest Api version

WHY I WANT TO SWITCH FROM MECHANICAL TO SOFTWARE ENGINEERING?

As a child I was always interested in how things work. When I got my first computer my interests in computers and increased. I started my programming journey making simple programmers in Python, then I eventually got interested in JavaScript making simple animations using P5.js library.
During current situation, the Whole world is embracing and using Tech for their day to day work and I also want to become part of this Great Revolution Happening in the World.

SKILLS

- REACT.JS
- NODE.JS
- MONGODB
- EXPRESS.JS
- TAILWINDCSS
- FIREBASE
- MANPOWER MANAGEMENT

INTERESTS

- TECH WORLD
- PROGRAMMING
- MUSIC
- FINANCES

WORK EXPERINCE

Working as a Junior Engineer in ISGEC Heavy Engineering Limited From July 2017 till present after completing Diploma in Mechanical Engineering from Govt. Polytechnic Ambala City.
I Supervised a group of around 25 people including Welders, Fitters, Grinders and Machinists and Successfully achieved the Targets set by the Organization
